

REMARKS/ARGUMENTS

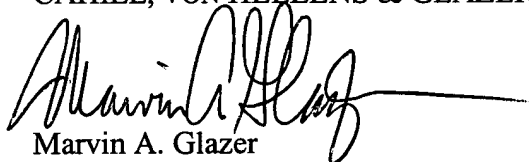

Within Fig. 1, reference numeral 20 was inadvertently used twice, once to refer to "slurry 20," and again to label the directional arrow that indicates the direction of travel of belt 14.

In the formal drawings submitted concurrently herewith, the directional arrow for moving belt 14 has been re-labeled as "19" to avoid any confusion.

The proposed amendment to the specification under Rule 312 conforms the specification to this correction of Fig. 1. As this is a minor amendment and does not add new matter, entry of this Amendment should be proper.

Respectfully submitted,

CAHILL, VON HELLENS & GLAZER P.L.C.
